\* Significant under-reporting by law enforcement (a significant percentage--over 25%--of the population within the county was not represented in the county total, as local law enforcement agency(s) did not provide juvenile arrest information); therefore, the actual number of arrests for the county is greater than the total reported.

\*\* Data include juveniles under the age of 10.

**Note: Race proportions include persons of Hispanic origin. Persons of Hispanic origin can be of any race; however, typically in UCR they are included in the White race category.**
